

Did you know?

Royal Homes supports the United Nations Sustainable Development Goals. Specifically goal 12.5 which is to substantially reduce waste generation through prevention, reduction, recycling and reuse. The Royal Homes factory reduces waste by reusing scrap and has had a recycling program for many years. We feel that prefabricating our homes in a factory allows us to better control how scrap materials are handled. This control enables us to efficiently minimize the amount of waste that goes to landfill.

Scenic Views. Modern Living.

The Royal Q-H is the ultimate modern home. This home stands in the forest, among the trees. It has been designed to utilize what nature offers. There is a bank of windows in the dining area, that lets all kinds of light in. The double sided fireplace is a feature of both the living room and dining room, where you can curl up and enjoy a good book. To make the most of the outdoors, this home also boasts a screened in porch, where you can still enjoy the outdoors, but not the outdoor pests.
